

2022 Canadian Bridge Championships

This year our Championships will be played on Realbridge and BBO. Championship events will be played on Realbridge and CNTC B, C plus COPC and CIPC will be played on BBO.

Events on Realbridge will require video and audio and will be played behind screens. We have arranged practice sessions on Realbridge for anyone who wants to try out Realbridge prior the event. We recommend that all players do this to become familiar with Realbridge and to check whether any adjustments to your system are required to optimize your setup. [More information here.](#)

Event	Dates	Venue	Registration Deadline *	Cost
